GLOBAL KEYNOTES

PLASTICS / MICROPLASTICS / ENVIRONMENT

DR. CHRIS DeARMITT

PhD • FRSC • CChem • FIMMM

Science that changes minds. Solutions that work.

Independent scientist. Author. Founder of the Plastics Research Council.

5,000+
scientific studies reviewed

30+
years in materials science

WORLDWIDE
in person & virtual

SELECTED MEDIA APPEARANCES & COVERAGE

CBS 60 MINUTES | BBC NEWS | SKY NEWS | THE WASHINGTON POST

A mindset shift. A practical advantage.

Turn a polarized topic into an event-defining conversation. Chris distills thousands of studies into vivid stories, unexpected findings and practical answers your audience can use.

YOUR AUDIENCE LEAVES WITH

01 CLARITY
Separate established evidence from persuasive headlines.

02 CONFIDENCE
Answer hard questions and make defensible material choices.

03 DIRECTION
Find solutions that reduce impact and avoid costly missteps.

SIGNATURE KEYNOTES

Shattering the Plastics Illusion
Waste, climate and ocean plastic: the facts that change the conversation.

Microplastics: Facts, Dose & Risk
What detection proves, what it does not, and how to judge the evidence.

Sustainability That Works
Life-cycle thinking, smarter choices and solutions with measurable benefits.

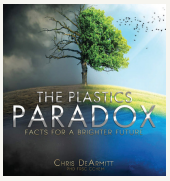

WHAT EVENT LEADERS SAY

> "...one of the best presentations I've ever seen."

Lance MacNevin | Plastics Pipe Institute

ACCLAIMED AUTHOR

Two books.
One clear mission:
better decisions
through science.

INDEPENDENT SCIENCE. EXTERNAL SCRUTINY.

Microplastics evidence review examined by five independent experts, including professors and toxicologists.

BRING THE EVIDENCE TO YOUR STAGE.
